Message from Honorable

CHAIRMAN

In the name of Allah, the Most Gracious, the Most Merciful.

Dear shareholders, Assalamu Alaikum wa Rahmatullah. On behalf of the Board of Directors of Islami Insurance Bangladesh Limited, I welcome and greet you all to the 26th Annual General Meeting of the company. I thank Almighty Allah for allowing us to meet with you on this pleasant occasion today. I sincerely thank and express my gratitude to you for your spontaneous presence at today's meeting. I hope you will cooperate so that today's meeting can be conducted smoothly. I believe that, by the infinite mercy of Almighty Allah, with your support and the Board's correct decisions, the company's pace of development and progress has continued. I also hope that, in the future, you will continue your sincere support and active cooperation to further accelerate the company's growth and advancement. Your cooperation, trust, confidence, and affection will make our future efforts even more successful, In shaa Allah.

Honourable shareholders, 46 non life insurance companies are licensed in our country. Despite intense competition among insurers, low interest rates on bank term deposits, a sluggish stock market, and a slowdown in domestic business due to the global economic downturn, Islami Insurance Bangladesh Limited has earned a total premium income of BDT 688.22 million and a net premium income of BDT 503.96 million. During the year under review, underwriting profit stood at BDT 123.51 million and profit before tax at BDT 139.08 million. In addition, claims amounting to BDT 49.03 million were settled. As of 31 December 2025, the company's total assets stood at BDT 1,844.15 million. Thanks to timely and appropriate decisions by the Board, the sincere efforts of management, and the tireless work and efficiency of all officials and staff the company has been able to maintain its growth trajectory in a competitive market.

For your information, despite overcoming various adverse situations such as the COVID 19 pandemic and the Ukraine–Russia and Palestine–Israel wars, your beloved institution has managed to maintain its dividend record. The Board of Directors has recommended a 16% cash dividend for shareholders. As you know, general (non life) insurance is a business of managing uncertain risks, so an insurance company must be mentally and financially prepared to pay claims. As Islami Insurance believes in standing transparently beside the affected policyholder, the Board and management are committed to settling claims quickly as soon as they are submitted. You will be pleased to know that Islami Insurance has already earned a good reputation in the insurance market for settling claims in the shortest possible time, Alhamdulillah. Islami Insurance Bangladesh Limited always maintains transparency in paying all dues to the government.

Finally, on the occasion of the 26th Annual General Meeting, I express my sincere gratitude and thanks for the cooperation of the Ministry of Finance, Finance Division, Insurance Division, Insurance Development and Regulatory Authority, Bangladesh Securities and Exchange Commission, Registrar of Joint Stock Companies and Firms, Dhaka and Chattogram Stock Exchanges PLC, Central Depository Bangladesh Limited, Sadharan Bima Corporation, Bangladesh Insurance Association, Bangladesh Bank, all commercial banks and financial institutions, the esteemed shareholders of the company, valued policyholders, all relevant government departments, electronic media, print media, journalists, well-wishers, and the Board of Directors of the company. I also sincerely thank and express my gratitude to the company's Chief Executive Officer, other executive officers, branch managers, and officers and employees for their tireless efforts and cooperation.

Praying for everyone's happiness, peace, prosperity, and good health, I conclude my speech. May Allah help us all.

Alhaj Mohammad Sayeed Khokan
Chairman

Message from

Chief Executive Officer

In the name of Allah, the Most Gracious, the Most Merciful.

Dear Shareholders, Assalamu Alaikum wa Rahmatullah.
On behalf of Islami Insurance Bangladesh Limited, I offer heartfelt congratulations to the esteemed Chair of today's 26th Annual General Meeting, to my fellow Directors, shareholders, officers, and distinguished guests in attendance. I thank Almighty Allah for enabling us, with your cooperation, to convene such a vibrant and successful meeting. I am grateful to each of you for your participation here today.

You know that our company received its licence in 1999, today marks our 26th Annual General Meeting. Through the tireless efforts of the Board and your unwavering support, the company has completed 26 years of success. I am confident that, with your continued backing, our business growth—and indeed our overall progress—will accelerate even further. Our Directors are working relentlessly toward this goal, setting business plans and guiding branch managers and all members of management.

We attach the highest priority to your investment in the company, always seeking to safeguard it and deliver the greatest possible return. As you are aware, Islami Insurance Bangladesh Limited earned gross premium income of BDT 688.22 million and net premium income of BDT 503.96 million. During the year under review, underwriting profit was BDT 123.51 million and profit before tax BDT 166.59 million. Claims amounting to BDT 49.03 million were settled, and as of 31 December 2025 total assets stood at BDT 1,844.15 million.

Dear shareholders, for the year under review the company has declared a 16% cash dividend for you. You are aware that the Insurance Development and Regulatory Authority (IDRA) has recently taken a number of initiatives to strengthen the sector; we expect these measures to enhance industry performance and boost company profitability, allowing us, God willing, to offer even higher dividends in the future.

I am pleased to inform you that the company's latest credit rating, completed by credit rating agency M/s. ARGUS Credit Rating Services Ltd., assigned us "AAA" in the long term and "ST-1" in the short term.

Finally, on the occasion of this 26th AGM, I extend my sincere gratitude to the Ministry of Finance, Finance Division, Insurance Division, IDRA, Bangladesh Securities & Exchange Commission, Registrar of Joint Stock Companies & Firms, Dhaka and Chattogram Stock Exchanges PLC, Central Depository Bangladesh Ltd., Sadharan Bima Corporation, Bangladesh Insurance Association, Bangladesh Bank, all commercial banks and financial institutions, our esteemed shareholders, valued policyholders, all relevant government departments, electronic and print media, journalists, well-wishers, and—above all—the Honourable Chairman, Vice Chairman, and Directors of the Board for their support. I also offer heartfelt thanks to the heads of departments at the head office, branch managers, and all officers and employees for their tireless efforts and cooperation.
Allah Hafez.

Md. Moinul Ahsan Chowdhury
Chief Executive Officer (Acting)

Directors' REPORT

Directors' Report

on

The activities of the Islami Insurance Bangladesh Ltd.

for the year ended 31 December-2025.

Bismillahir Rahmanir Rahim

Dear distinguished shareholders, colleagues and confrères, ladies and gentlemen present and connected, Assalamu Alaikum wa-Rahmatullah.

It gives me immense pleasure to welcome you all en-masse for and on behalf of the Board of Directors of your beloved company and of my own accord on the auspicious occasion of the 26th Annual General Meeting. At this opportune moment, I also offer my heartfelt thanks and gratitude to you all for taking the trouble and taxing your valuable times to attend the meeting and participate in the deliberations and discussions on the acts and activities of your company, which already crossed the threshold of two decades by the grace of Almighty.

On this auspicious moment, I deem it a privilege to lay before you the Directors' formal report of the company for the year ended 31 December 2025, together with the audited Financial statements including the Balance Sheet depicting the pen-picture of the state of affairs of your company and the Auditors' Report thereon as on 31 December 2025 for your kind perusal, consideration, deliberation, approval, and adoption.

Industry Outlook and Possible Future Development

We are all aware that immediately after liberation of our country, the Insurance sector was nationalized and subsequently de-nationalized in the first part of 1980 by the Government to grow and develop in the private sector simultaneously with the public sector. This gave the industry a remarkable impetus and momentum to grow in a limited market with tough competition although competition helps thrive and survive the better performers and service providers. In particular, reforms in insurance regulations, as introduced by the Insurance Development and Regulatory Authority (IDRA) could yield significant positive outcomes for the country's economy.

From this perspective, we belong to the 3rd generation group that emerged in the year 1999-2000 to underwrite general insurance business of marine, motor, fire and miscellaneous and the total number of general insurance companies stood at 46. In consideration of limited market potential, the total no. of private sector general insurance companies is considered by almost all the insurance stalwarts to be too many resulting in unhealthy competition which more often than not tends to become unholy and unethical competition to carve out business from the limited sources. Besides, there is no denying the fact that the impact of the recent current global recession, the Ukraine-Russia war, and covid-19 pandemic also impacted on our economy. This also stood on the way of procuring business. Even then we, the Board of Directors thank the Almighty that our business performance was on the higher side than those of the previous years as you have observed from the facts and figures already in your hand despite the drastic fall in imports due to recession during the period under review. It may not be out of the way to mention here that many economically solid countries of the world including some SAARC countries, fell prey to this global economic meltdown. Alhamdulillah, we were not so very affected, and thus our business too, our growth registered an increase over the previous year.

Global Economy

Global growth is slowing due to a substantial rise in trade barriers and the pervasive effects of an uncertain global policy environment. Growth is expected to weaken to 2.30% in 2025, with deceleration in most economies relative to last year. This would mark the slowest rate of global growth since 2008, aside from outright global recessions. In 2026-27, a tepid recovery is ex-pected, leaving global output materially below January projections. Progress by emerging market and developing economies (EMDES) in closing per capita income gaps with advanced economies and reducing extreme poverty is anticipated to remain insufficient. The outlook largely hinges on the evolution of trade policy globally. Growth could turn out to be lower if trade restrictions escalate or if policy uncertainty persists, which could also result in a build-up of financial stress. Other downside risks include weaker than expected growth in major economies with adverse global spillovers, worsening conflicts, and extreme weather events. On the upside, uncertainty and trade barriers could diminish if major economies reach lasting agreements that address trade tensions. The ongoing global headwinds underscore the need for determined multilateral policy efforts to foster a more predictable and transparent environment for resolving trade ten-sions, some of which stem from macroeconomic imbalances. Global

policy efforts are also need-ed to confront the deteriorating circumstances of vulnerable EMDEs amid prevalent conflict and debt distress, while addressing longstanding challenges, including the effects of climate change. National policy makers need to contain risks related to inflation as well as strengthen their fiscal positions by raising additional domestic revenues and re-prioritizing spending. To facilitate job creation and boost long-term growth prospects in EMDES, reforms are essential to enhance insti-tutional quality, stimulate private investment growth, develop human capital, and improve labor market functioning. *(World Bank Global Economic Prospects)*

Bangladesh Economy

Despite a recent slowdown, Bangladesh averaged 6.30% GDP growth over the past decade. Services account for over half of GDP, followed by industry (34%) and agriculture (11%). Poverty fell from 14.70% in 2010 to 5.90% in 2022, based on the $3.00 per person per day international poverty line (2022 PPP, comparable welfare series). Inequality has narrowed slightly in rural areas but widened in urban areas. Amid global uncertainties, Bangladesh faces short and medium term challenges. According to provisional government estimates, real GDP growth was 3.70% in FY25 due to weaker private and public investment. The World Bank projects GDP growth to rise to 4.80% in FY26 and 6.30% in FY27. Inflation remains elevated and financial sector vulnerabilities persist. External pressures have eased, with strong remittance inflows and exports supporting the current account. Foreign exchange reserves have also improved. Growth is expected to rebound in the medium term if underpinned by strong reforms. To stay on an inclusive. sustainable growth path, Bangladesh needs urgent reforms to strengthen the financial sector, improve the business environment, enhance domestic revenue mobilization, diversify exports, strengthen institutions and create jobs for its large youth population. *(World Bank Economy)*

Performance and achievements of IIBL

Bangladesh is a Muslim-majority country. Due to religious views, the Muslim population has little interest in the conventional insurance system. Therefore, in order to involve the majority of the population of Bangladesh with insurance benefits, the first Islamic insurance company named Islami Insurance Bangladesh Limited was approved by the then Chief Insurance Regulator, Department of Insurance, Government of the People's Republic of Bangladesh on 29 December 1999 to introduce Islamic Sharia-based insurance. In order to make Bangladesh Takaful or Islamic insurance business in accordance with Islamic Sharia and rules, a council titled "Central Sharia for Islamic Insurance" was formed on 13 October 2002. The then Khatib of Baitul Mukarram National Mosque, Late Allama Obaidul Haque, was the founding chairman of this council and Principal Syed Kamaluddin Jafri and Professor Maulana ABM Masum Billah were elected as the Secretary General and Assistant Secretary General of the said council respectively. From the beginning of the formation of the council, this organization planned to formulate rules related to Takaful and Islamic Sharia. In order to make the insurance business in Bangladesh timely, in accordance with the law and regulations, two complete laws were enacted under the title of Insurance Act, 2010 (Act No. 13-2010) and Insurance Development and Regulatory Authority Act, 2010 (Act No. 12-2010) . The concept of Islamic insurance has been incorporated in Section 7 of the Insurance Act. According to that section, a separate policy needs to be prepared for conducting the business, which must be approved under Section 30 of the IDRA Act, 2010 and Section 146 of the Insurance Act, 2010. In addition, IDRA has proposed a draft of Islamic Insurance Rules, 2024. The Central Shariah Council, after a two-year review, has finally prepared a draft regulation on the concept of (Insurance) Takaful and a draft proposal of Takaful Regulation has been submitted to the office of the Chairman of IDRA on 9 October 2012 as per Section 38, which is under process.

Despite the facts and circumstances obtaining in the internal and international economic downturn during the last few years, our business & growth is satisfactory, and I am pleased to apprise you that your company made appreciable headway in almost all the fields of our operation. The Key operating and financial data for the last five years have been shown at IIBL Performance at a Glance (in figure and graphs) page no. 65 to 70 of Annual Report 2025.

Description of the company's activities in 2025 is given below

Premium Income

The main income in the non-life insurance business is premium income. In 2025, the gross premium income was Tk. 688.22 million, including the proportional share of government premium business of Tk. 98.62 million. Out of this premium income, reinsurance expenses were 184.25 million taka. Net premium income was Tk. 503.96 million. In 2024, gross premium and net premium were Tk. 675.28 million and Tk. 480.40 million. Income from underwriting or revenue account in 2025 was Tk. 123.51 million. Income from underwriting or revenue account in 2024 was Tk. 139.07 million.

Category-wise Premium Income

Fire Insurance

Fire insurance premium income in 2025 was Tk. 269.43 million. After excluding reinsurance, insurance claims, management expenses and provisions for unexpired risks, the underwriting or revenue income in the fire insurance sector was Tk. 99.13 million, compared to Tk. 42.40 million in 2024.

Marine Insurance

Marine insurance premium income in 2025 was Tk. 326.96 million. After excluding reinsurance, insurance claims, management expenses and provisions for unexpired risks, the underwriting or revenue income in the Marine insurance sector was Tk. 32.98 million, compared to Tk. 93.65 million in 2024.

Motor Insurance

Motor insurance premium income in 2025 was Tk. 28.46 million. After excluding reinsurance, insurance claims, management expenses and provisions for unexpired risks, the underwriting or revenue income in the Motor insurance sector was Tk. 19.90 million, compared to Tk. 11.50 million in 2024.

Miscellaneous Insurance

In 2025, premium income from miscellaneous insurance business excluding fire, marine, marine hull and motor insurance was Tk. 63.36 million. After excluding reinsurance, insurance claims, management expenses and provisions for unexpired risks, the miscellaneous insurance sector recorded an underwriting or revenue loss of Tk.28.51 million, compared to Tk.8.48 million in 2024. Since the risk in this sector is high, it has become difficult to earn profit due to high expenses in the reinsurance sector. It is mentioned that in order to maintain other classes of business of the same insured, the risk of miscellaneous insurance has to be taken.

Services to Clients & Settlement of Claims

Our avowed policy of prompt settlement of claims has hitherto earned a very good name and fame in the market for which we are grateful to the Almighty. We are thankful to the Risk Management & Reinsurance and Retrocession Committee whose quickness of decision & action in this regard is acclaimed by all concerned. It is an obvious fact that prompt settlement of claims is the prime requisite of a Company belonging to insurance industry based on the principles of utmost good faith, and our clients have rightly reposed their good faith in our Company. Total gross claims settled in 2025 amounted to Tk. 49.03 million as against Tk. 102.20 million in 2024.

Risk and Concern

Non-life & life both insurance businesses involve the assumption of risk of many types-physical as well as moral. Physical risks are identified as those caused by natural disasters, accidental losses, and man-made disasters.

The key to proper management of insurance business risks is to make sure proper selection of the client through an inspection process known as underwriting. The non-life insurance business also closely follows the country's economic development, and any slowdown in the economic activities has an adverse impact on the insurance industry's growth. Islami Insurance Bangladesh Ltd., being aware of these business risks, practices the following to protect its interests: (i) selection of risks that have the potential of making underwriting profit. (ii) Diversification into many segments of business product-wise as well as client wise so that the company is not over reliant on any particular segment (ii) Arranges adequate reinsurance backup of risks assumed by it with good quality securities. (iv) Maintains a conservative reserving policy, and its various technical reserves have been created to adequately cater to unforeseen developments in the future.

Cost of Goods Sold, Gross Profit Margin & Net Profit Margin

Management's Discussion and Analysis

(An Integral Part of the Directors' Report)

Assalamu Alaikum.

Dear Shareholders,

As per condition No. 1(5)(xxv) of Corporate Governance Code dated 03 June, 2018 the Management Discussion and Analysis are being presented before you along with the company's position and operations together with a brief discussion of changes in the financial statements.

Bangladesh is a Muslim-majority country. Due to religious views, the Muslim population has little interest in the conventional insurance system. Therefore, in order to involve the majority of the population of Bangladesh with insurance benefits, the first Islamic insurance company named Islamic Insurance Bangladesh Limited was approved by the then Chief Insurance Regulator, Department of Insurance, Government of the People's Republic of Bangladesh on 29 December 1999 to introduce Islamic Sharia-based insurance. In order to make Bangladesh Takaful or Islamic insurance business in accordance with Islamic Sharia and rules, a council titled "Central Sharia for Islamic Insurance" was formed on 13 October 2002. The then Khatib of Baitul Mukarram National Mosque, Late Allama Obaidul Haque, was the founding chairman of this council and Principal Syed Kamaluddin Jafri and Professor Maulana ABM Masum Billah were elected as the Secretary General and Assistant Secretary General of the said council respectively. From the beginning of the formation of the council, this organization planned to formulate rules related to Takaful and Islamic Sharia. In order to make the insurance business in Bangladesh timely, in accordance with the law and regulations, two complete laws were enacted under the title of Insurance Act, 2010 (Act No. 13-2010) and Insurance Development and Regulatory Authority Act, 2010 (Act No. 12-2010). The concept of Islamic insurance has been incorporated in Section 7 of the Insurance Act. According to that section, a separate policy needs to be prepared for conducting the business, which must be approved under Section 30 of the IDRA Act, 2010 and Section 146 of the Insurance Act, 2010. In addition, IDRA has proposed a draft of Islamic Insurance Rules, 2024. The Central Shariah Council, after a two-year review, has finally prepared a draft regulation on the concept of (Insurance) Takaful and a draft proposal of Takaful Regulation has been submitted to the office of the Chairman of IDRA on 9 October 2012 as per Section 38, which is under process.

Despite the facts and circumstances obtaining in the internal and international economic downturn during the last few years, our business & growth is satisfactory, and I am pleased to apprise you that your company made appreciable headway in almost all the fields of our operation.

Insurance Industry in Bangladesh

We are all aware that immediately after liberation of our country, the insurance sector was nationalized and subsequently de-nationalized in the first part of 1980 by the government to grow and develop in the private sector simultaneously with the public sector. The government and the Insurance Development Regulatory Authority (IDRA) are still working hard to make significant contributions in their own fields to the growth of the insurance business. The country's insurance market is being developed thanks to actions made by the government and IDRA. The regulatory body tries to direct insurance businesses to carry out government plans as per the Insurance Act 2010. The Bangladesh Insurance Association (BIA) is providing several instructions for successfully operating the life and non-life insurance company in compliance with the Insurance Act 2010's laws and regulations. The insurance firms will be responsible for managing the business profitably and successfully.

Global Economy

Global growth is slowing due to a substantial rise in trade barriers and the pervasive effects of an uncertain global policy environment. Growth is expected to weaken to 2.30% in 2025, with deceleration in most economies relative to last year. This would mark the slowest rate of global growth since 2008, aside from outright global recessions. In 2026-27, a tepid recovery is ex-pected, leaving global output materially below January projections. Progress by emerging market and developing economies (EMDES) in closing per capita income gaps with advanced economies and reducing extreme poverty is anticipated to remain insufficient. The outlook largely hinges on the evolution of trade policy globally. Growth could turn out to be lower if trade restrictions escalate or if policy uncertainty persists, which could also result in a build-up of financial stress. Other downside risks include weaker than expected growth in major economies with adverse global spillovers, worsening conflicts, and extreme weather events. On the upside, uncertainty and trade barriers could diminish if major economies reach lasting agreements that address trade tensions. The ongoing global headwinds underscore the need for determined multilateral policy efforts to foster a more predictable and transparent environment for resolving trade ten-sions, some of which stem from macroeconomic imbalances. Global policy efforts are also need-ed to confront the deteriorating circumstances of vulnerable EMDEs amid prevalent conflict and debt distress, while addressing longstanding challenges, including the effects of climate change. National policy makers need to contain risks related to inflation as well as strengthen their fiscal positions by raising additional domestic revenues and re-prioritizing spending. To facilitate job creation and boost long-term growth prospects in

EMDES, reforms are essential to enhance insti-tutional quality, stimulate private investment growth, develop human capital, and improve labor market functioning. *(World Bank Global Economic Prospects)*

Bangladesh Economy

Despite a recent slowdown, Bangladesh averaged 6.30% GDP growth over the past decade. Services account for over half of GDP, followed by industry (34%) and agriculture (11%). Poverty fell from 14.70% in 2010 to 5.90% in 2022, based on the $3.00 per person per day international poverty line (2022 PPP, comparable welfare series). Inequality has narrowed slightly in rural areas but widened in urban areas. Amid global uncertainties, Bangladesh faces short and medium term challenges. According to provisional government estimates, real GDP growth was 3.70% in FY25 due to weaker private and public investment. The World Bank projects GDP growth to rise to 4.80% in FY26 and 6.30% in FY27. Inflation remains elevated and financial sector vulnerabilities persist. External pressures have eased, with strong remittance inflows and exports supporting the current account. Foreign exchange reserves have also improved. Growth is expected to rebound in the medium term if underpinned by strong reforms. To stay on an inclusive. sustainable growth path, Bangladesh needs urgent reforms to strengthen the financial sector, improve the business environment, enhance domestic revenue mobilization, diversify exports, strengthen institutions and create jobs for its large youth population. *(World Bank Economy)*

Risk and Concern

Non-life & life both insurance businesses involve the assumption of risk of many types-physical as well as moral. Physical risks are identified as those caused by natural disasters, accidental losses, and man-made disasters.

The key to proper management of insurance business risks is to make sure proper selection of the client through an inspection process known as underwriting. The non-life insurance business also closely follows the country's economic development, and any slowdown in the economic activities also has an adverse impact on the insurance industry's growth. Islami Insurance Bangladesh Ltd., being aware of these business risks, practices the following to protect its interests: (i) selection of risks that have the potential of making underwriting profit. (ii) Diversification into many segments of business product-wise as well as client wise so that the company is not over reliant on any particular segment (ii) Arranges adequate reinsurance backup of risks assumed by it with good quality securities. (iv) Maintains a conservative reserving policy, and its various technical reserves have been created to adequately cater to unforeseen developments in the future.

Company Future Plan

The authorities have set a target for the company to achieve more premium income and business success in 2026 than in previous years. All concerned are instructed to ensure prompt customer service and cooperation in all areas to implement this target. Our wise board of directors will continue to strive to achieve the target through well-thought-out guidance and we hope that this company will be established as a model in the insurance industry of this country. In addition, I believe that the hard work, honesty and sincere cooperation of the management authority and officers and employees will accelerate the future path of the company, Insha-Allah.

It is expected that with the valued suggestions of the Board of Directors, the shareholders, and the relentless efforts and dedicated services of the employees, the company will be able to upgrade the position during the remaining period of the year. Prudent and judicious financial management combined with stringent austerity measures by all concerned is also warranted to improve the profitability and viability of the company.

We would also like to express our gratitude to the Board of Directors and Management Team for their dedication to advancing and implementing the company plan and for their consistent support, which helped the company become an institute with good financial standing. We would like to express our sincere gratitude for all of the company's employees' devoted and unwavering efforts.

Thanking you

Report of the Shariah Committee

Assalamu Alaikum Wa Rahmatullahi.

Respected Shareholders,

The audited financial statements of Islami Insurance Bangladesh Limited for the year ended 31 December, 2025 were approved in the 252nd meeting of the Board of Directors held on Wednesday, 24th June, 2026 at 3:00 PM. After reviewing the said financial statements and all activities, the following opinions and recommendations are provided:

Opinion

- The committee is of the opinion that during the year under review, the company has followed the Shariah rules and regulations as far as possible in conducting its operations and has implemented the directives of the Shariah Council;
- It appears to the committee that the company has continued its efforts to follow Islamic Shariah rules and regulations in investments, except for legal obligations;
- The income from savings and the money received from Fixed Deposits (FDR) maintained in conventional banks are kept in a separate bank account of the company and are spent according to the directives of the Shariah Committee;
- It appears to the committee that the insurance claims from the Zakat fund have been settled.
- The committee expresses satisfaction with the activities related to helping helpless and distressed people through the "Islami Insurance Foundation";
- The committee expresses the opinion that the company's reinsurance agreement needs to be made with a Shariah-based company outside the country.

Recommendations

- To follow complete Shariah rules and regulations in conducting all other activities of the company, except for legal obligations;
- As this company is the first Shariah-based non-life insurance company in the country, its activities should be made clear and transparent in the light of Shariah;
- To organize seminars and symposiums with the aim of providing all levels of officers/employees with proper knowledge about Shariah and Islamic insurance and economy;
- To provide training on Shariah and Islamic insurance and economy from time to time with the aim of increasing the skills of the staff/officers/employees;
- That each shareholder of the company pays the Zakat on their respective shares on their own responsibility.

The Shariah Committee prays to Almighty Allah for the continued prosperity of the company.

Wa-Assalam,

Al-Haj Mohammad Abdul Hannan
Member
Shariah Committee

Dividend Distribution Policy of Islami Insurance Bangladesh Limited

Objective:

The objective of this policy is to lay down the criteria to be considered by the Board of Directors of the Company before recommending dividend to its shareholders for a financial year. The policy is framed in compliance with the Bangladesh Securities and Exchange Commission's Directive dated on January 14, 2021.

Criteria To Be Considered Before Recommending Dividend:

The Board will consider the following factors before recommending dividend:

Statutory and Regulatory Compliance:

The Company shall declare dividend only after ensuring compliance with the regulatory guidelines on dividend declaration e.g. in line with the directives of the Finance Act- 2019 and or by fulfilling other restrictions, if there is any, from the regulators like Insurance Development and Regulatory Authority of Bangladesh, Bangladesh Bank and Bangladesh Securities Exchange Commission (BSEC) etc.

Financial Criteria:

- Financial performance of the Company for the year for which dividend is recommended
- Internal capital planning framework/policy;
- Dividend payout trends (the dividend payout ratio will be calculated as a percentage of dividend (including dividend tax) recommended for the year to the net profit for that year);
- Tax implications if any, on distribution of dividends;
- Cost of raising funds from alternate sources of capital;
- Corporate actions including mergers/demergers, acquisitions and additional investments including expansion plans and investment in subsidiaries/associates of the Company;
- Such other factors and/or material events which the Company's Board may consider

External Factors:

- Shareholders' expectations including individual shareholders
- Macro-economic environment

Circumstances Under Which Shareholders May Or May Not Expect Dividend:

The Board of the Company may not recommend any dividend if the eligibility criteria for recommendation of dividend has not been met by the Company, including any regulatory restriction placed on the Company on declaration of dividend or if the Board strongly believes the need to conserve capital for growth or other exigencies which will be spelled.

Dividend Distribution:

- Company shall pay off the dividend (cash/stock) to the shareholders within 30 days of declaration or approval or record date as the case may be;
- Company shall pay off the cash dividend to the bank account of the entitled shareholder as available in the BO account maintained with the depository participant (DP), or the bank account as provided by the shareholder in paper form, through Bangladesh Electronic Funds Transfer Network (BEFTN) or through bank transfer or any electronic payment system as recognized by the Bangladesh Bank, if not possible through BEFTN;
- Dividend of the margin client of stock broker or merchant banker shall pay off to the Consolidated Customer's Bank Account (CCBA) of the stock broker or to the separate bank account of the merchant banker or portfolio manager through BEFTN;

- In case of non-availability of bank account information or not possible to distribute cash dividend through BEFTN or any electronic payment system, shall issue cash dividend warrant and shall send it by post to the shareholder;
- Company shall credit the stock dividend to the BO account or issue the bonus share certificate of the entitled shareholder;
- Company shall follow the directives/circulars in force of the securities regulator, related to dividend distribution from time to time.

Utilisation Of Retained Earnings:

The Company would utilize the retained earnings of the Company in a manner which is beneficial to the interest of the Company and its stakeholders, including, but not limited to ensuring maintenance of a healthy level of minimum capital adequacy ratios, meeting the Company's future business growth/expansion and strategic plans or such other purpose the Board may deem fit from time to time in the interest of the Company and its stakeholders.

Parameters For Various Classes Of Shares:

Currently, the Company does not have any other class of shares (including shares with differential voting rights/ preference shares) other than equity shares. In the absence of any other class of shares and/or shares with differential voting rights, the entire distributable profit for the purpose of declaration of dividend is considered for the equity shareholders.

Conflict In Policy:

In the event of a conflict between this policy and the extant regulations, the regulations shall prevail.

Amendments / Modifications:

To the extent any change/amendment is required in terms of any applicable law or change in regulations, the regulations would prevail over the policy and the provisions in the policy would be modified in due course to make it consistent with law. Such amended policy shall be placed before the Board for noting and necessary ratification.

Review Of Policy:

The Board of Directors of the Company may review the policy, if the Board proposes to declare dividend on the basis of criteria in addition to those specified in the policy, or proposes to modify the criteria, it shall disclose such changes along with the rationale for the same on the Company's website and in the Annual Report.

Disclosure Of Policy:

The policy will be available on the Company's website and will also be disclosed in the Company's Annual Report.

The Board of Directors as well as the Management of Islami Insurance Bangladesh has set out the overall approach of the Company's Risk Management activities. Risk is the effect of uncertainty on objective and an effect is a positive or negative deviation from what is expected. The Major areas of risk that the activities of the Company are exposed to are Insurance risks, Financial risks, Operational risks, Strategy risks, Legal & Compliance risks. The Insurance business principal is taking risks and managing the risks. The most important tasks within underwriting risks management relate to risk selection and pricing, the acquisition of reinsurance cover, the monitoring of claim expenditure and the analysis of Technical provisions. The underwriting Executives act as the highest decision-making body under the guidance of Chief Executive Officer and Board of Directors to underwrite the risks. The Management has a underwriting Guideline to Branch offices for controlling of risks. High volume of Insurance risks/Multiple or complex risks of Insurance would help pre-underwriting inspection report from surveyors to minimize risk. Underwriting & Branch Control department of our Head Office is inspecting various classes of risks from our Branches according to underwriting Guideline & Insurance tariff of Central Rating Committee. The management takes special care about the following areas to minimize the day to day operational Underwriting risks of the Company:

1.	Issuance of Cover notes, Certificates policies and Reinsurance policy documentation.
2.	Co-ordination of Premium Collection;
3.	Preparation of Reinsurance/Bordereaux;
4.	Co-ordination of Claims with payments as well as recoveries;
5.	Control the credit business;
6.	Reinsurance Coverage for the Catastrophic loss of the Company;

Finally, all risks are continually being updated and adapted by the Company under guidance of the Board of Directors. The effectiveness of these systems is reviewed by Internal Auditor, Statutory Auditor and the Board of Directors. The management of the Company made risk assessment on business and made risk mitigation plan to eliminate risks. The audit Committee supports the Board in monitoring activities of Management and deals with risk management issues.

Certificate of Compliance with the Insurers' Corporate Governance Guidelines of

Islami Insurance Bangladesh Limited

(As required under the IDRA Corporate Governance Guidelines-2023)

We have examined the compliance statement with the guidelines on Corporate Governance of **Islami Insurance Bangladesh Limited** for the year ended 31st December 2025. These guidelines relate to the conditions of the "Insurers' Corporate Governance Guideline-2023" on Corporate Governance issued by the Insurance Development and Regulatory Authority (IDRA) and which is circulated vide Reference No. 53.03.0000.075.22.025.2020.230 dated October 19, 2023.

Compliance with the Corporate Governance Guideline-2023 is the responsibility of the **Board of Directors** and **Management** of the Company. Our examination was limited to the procedures and implementation thereof as adopted by the Management in ensuring compliance with the conditions of Corporate Governance Guidelines 2023 Condition No 19(2). This is a scrutiny and verification and an independent audit on compliance with the conditions of Corporate Governance as regulated by IDRA and to issue a Certificate.

We also state that such compliance is neither an assurance as to the future viability of the Company nor a certification of the efficiency or effectiveness with which the Management has conducted the affairs of the Company. This is also no endorsement of the quality of the contents in the Annual Report of the Company for the year 2025.

Based on our review and verification, we report that, in our opinion:

The Company has complied with most of the conditions of the Guideline issued by IDRA including the conditions related to Board Size, Appointment of Independent Directors and Selection of Chairperson; Constitution or Re-constitution of Audit Committee, Nomination and Remuneration Committee (NRC), Investment Committee, Risk Management Committee, and Policyholders Protection & Compliance Committee; Appointments of Chief Executive Officer (CEO), Chief Financial Officer (CFO), Company Secretary (CS), Chief Investment Officer (CIO), Chief Risk Officer (CRO) and Head of Internal Audit & Compliance (HIAC); Reporting by Audit Committee and NRC; Maintaining Website and Making Disclosures therein; Appointment of Corporate Governance Auditors, Disclosure of Report, and Certification on Compliance with the Guideline in the Annual Report;

We acknowledge that, subject to the remarks and observations, the Company is expected to ensure compliance with all applicable provisions of the "Insurers' Corporate Governance Guideline-2023" and that **the Governance of the Company is satisfactory.**

Report on Going Concern

A Business Concern cannot smoothly run without going concern principle. The going concem principle is the assumption that entity will remain in business for the foreseeable future. Financial statements are normally prepared on the assumption that an institution is a going concern. Conversely, this means that the entity will not be forced to halt operation and liquidate its assets in the near term, by making this assumption, the management is justified in differing the recognition of some expenses until a later period, when the entity is presumably still be in business and using its assets. Management has considered the following events & conditions to come this conclusion about Islami Insurance Bangladesh Ltd's ability to continue:

1.	Net Current Assets Position
2.	Net Liability or Net Current Liability Position
3.	Key Financial Ratios
4.	Operating Cash Flows
5.	Underwriting Results & Trends
6.	Consistent Payment of Dividend
7.	Inability to Pay Creditors on Due Dates
8.	Maintenance of Sufficient Capital Base as Required by Law
9.	Strong Reserve Base
10.	Strong Equity Base
11.	Strong Claim Paying Ability
12.	Good Business Expansion
13.	Fair Market Reputation & Clients Satisfaction

Independent Auditors' Report to the Shareholders of Islami Insurance Bangladesh Limited Report on the Audit of Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Islami Insurance Bangladesh Limited**, which comprise the Statement of Financial Position as at December 31, 2025 the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Profit and Loss and Other Comprehensive Income Appropriation Account, related Revenue Accounts, Statement of Changes in Equity and Statement of Cash Flows for the period from January 01, 2025 to December 31, 2025 and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of **Islami Insurance Bangladesh Limited**. as at 31 December 2025, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), the Companies Act, 1994, the Insurance Act, 2010, the Insurance Rules 1958, the Securities and Exchange Rules, 2020, and other applicable laws and regulations.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics Professional Accountants (IESBA Code) together with for the ethical requirements that are relevant to our audit of the financial statements in Bangladesh and we have fulfilled our other ethical responsibilities in accordance with these ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. **Property, Plant and Equipment and Investment Property**

   Depreciation had been charged on the aggregate value of land and office space and Investment Property, which included land. Since land is not a depreciable asset, the depreciation expense and carrying values of the related assets may have been misstated. The effect of such matter on the financial statements could not be determined.

2. **Non-Compliance with Management Expense Limitation**

   It was noted that the management expenses incurred during the year exceeded the maximum limit prescribed under Section 62 of the Insurance Act, 2010. Accordingly, the Company was found to be non-compliant with the relevant provisions of the Insurance Act, 2010 in respect of management expense limitations.

3. **Gratuity Fund Administration**

   Although a Trust Deed for the Gratuity Fund has been established, separate books of accounts and financial statements for the Gratuity Fund have not been maintained. Furthermore, no independent audit of the Gratuity Fund has been conducted to date. As a result, compliance with the relevant provisions of the Bangladesh Labour Act and related regulatory requirements could not be fully established.

4. **Reconciliation of Gross Premium and VAT Return**

   We draw attention the company could not provide us the difference amount of BDT. 6.809 million between VAT return (BDT 695.027 million) and "Gross Premium" (BDT 688.218 million) as presented in "Form XL" to the financial statements. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Key audit matters were identified in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters except the matters of restatement of financial position presented for the year ended December 31, 2025 which described in details below. We summarized below the key audit matters in arriving at our audit opinion above, together with our key audit procedures to address those matters and, as required for public limited entities, our results from those procedures.

Key Audit Matter	How our audit addressed the key audit matters
Premium Income	
Premium income is the most financially significant item in the statement of profit and loss account & profit and loss appropriation account. The company has reported gross premium income of BDT 688,218,087 for the year ended December 31, 2025. Gross general insurance premium comprises the total premium received during the accounting period for which insurance policy has been issued by contracts with Islami Insurance Bangladesh Limited. As the premium income recognition, due to the significance of the balance to the financial statements as a whole, we regard this as a key audit matter.	Our procedures included obtaining an understanding of management's premium income recognition process. We tested a sample of transactions to verify whether the revenue was accounted for in accordance with the revenue recognition policy as disclosed in **FORM XL** of the financial statements. In addition, we assessed whether the disclosed revenue recognition policy was in accordance with relevant Insurance Act & Rules. For the revenue recognized throughout the year, we tested selected key controls, including results reviews by management, for their operating effectiveness and performed procedures to gain sufficient audit evidence on the accuracy of the accounting for customer contracts and related financial statement captions. With respect to Premium income in respect of various types of insurance we carried out the following procedures: • The design and operating effectiveness of key controls around premium income recognition process. • Carried out analytical procedures and recalculated premium income for the period. • Carried out cut-off testing to ensure unearned premium income has not been included in the premium income. • On a sample basis reviewed policy to ensure appropriate policy stamp was affixed to the contract and the same has been reflected in the premium register. • Ensured on a sample basis that the premium income was being deposited in the designated bank account. • Tested on a sample basis to see that appropriate VAT was being collected and deposited to bank through Treasury Chalan. • For a sample of insurance contracts tested to see if appropriate level of reinsurance was done and whether that re-insurance premium was deducted from the gross premium.

	• Applying specialist judgment ensured if there is any impairment of the reinsurer. Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards, Insurance Act 1938 (as amended in 2010), Insurance Rules, 1958 and other applicable rules and regulations and regulatory guidelines.
See Form XL to the financial statements	
Estimated liability in respect of outstanding claims whether due or intimated and claim payment	
Islami Insurance Bangladesh Limited. has represented the amount related with the claim due or intimated from the insured which involves management judgment & risk of over & understatement of the value. As a result, financial statements may show distorted amount which may also concern going concern issue for the company. At the year-end 2025, the Company reported total balance under the head of estimated liability in respect of outstanding claims whether due or intimated and claim payment of BDT 227,501,673.	We tested the design and operating effectiveness of controls around the due and intimated claim recording process. We additionally carried out the following substantive testing around this item: • Obtained the claim register and tested for completeness of claims recorded in the register on a sample basis. • Obtained a sample of claimed policy copy and cross check it with claim. • Obtained a sample of survey reports cross checked those against respective ledger balances and in case of discrepancy carried out further investigation. • Obtained and discussed with management about their basis for estimation and challenged their assumptions where appropriate. • Reviewed the claim committee meeting minutes about decision about pending claims. • Tested a sample of claims payments with intimation letter, survey report, bank statement, claim payment register and general ledger. • Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards, Insurance Act 1938 (as amended in 2010), Insurance Rules, 1958 and other applicable rules and regulations and regulatory guidelines.
See note 7.00 to the financial statements	
Property, Plant & Equipment	
The carrying value of property, plant & equipment amounts to Taka 358,426,132. This represents a significant amount in the company's statement of financial position as at December 31, 2025. There is a risk of: ✓ determining which costs meet the criteria for capitalization; ✓ determining the date on which the assets is recognized to property, plant and equipment and depreciation commences; ✓ the estimation of economic useful lives and residual values assigned to Fixed asset.	Our audit procedures to assess the carrying value of property, plant & equipment included the following: Our audit procedures included controls testing and substantive procedures covering, in particular: • Assessing the design, implementation and operating effectiveness of key internal controls over the completeness, existence and accuracy of property, plant and equipment including the key internal controls over the estimation of useful economic lives and residual values; • Assessing, on a sample basis, costs capitalized during the year by comparing the costs capitalized with the relevant underlying documentation, which included purchase agreements and invoices, and assessing whether the costs capitalized met the relevant criteria for capitalization.

We identified the carrying value of property, plant and equipment as a key audit matter because of the high level of management judgment involved and because of its significance to the financial statements.	• Testing the key controls over the management's judgment in relation to the accounting estimates of the depreciable lives and residual values of property, plant and equipment. • Reconcile on a sample basis the additional capitalized costs for the year to the underlying invoices and supporting documents. • We reviewed minutes of board meetings for approval of the total capitalization cost. • We assessed the company's capitalizations policy for compliance with IAS 16 and tested the expenditure capitalized against the capitalizations policy. • We traced payments to supporting documents. • We assessed the adequacy of the disclosures of the financial statements.
See Schedule of Fixed Assets of financial statements.	
Deferred tax liability	
Company reported net deferred tax liability totaling BDT 17,002,245 as at December 31, 2025. Significant judgment is required in relation to deferred tax liability as their liability is dependent on forecasts of future profitability over a number of years.	Our audit procedures to assess the carrying value of Deferred Tax liability included the following: • We obtained an understanding, evaluated the design and tested the operational effectiveness of the Company's key controls over the recognition and measurement of Deferred Tax Assets and Liabilities and the assumptions used in estimating the future taxable expense of the Company. • We also assessed the completeness and accuracy of the data used for the estimations of future taxable expense. • We tested the mathematical accuracy in calculation of deferred tax. • We evaluated the reasonableness of key assumptions, timing of reversal of temporary differences and expiration of tax loss carry forwards, recognition and measurement of Deferred Tax Liability. • We assessed the adequacy of the Company's disclosures setting out the basis of deferred tax liability balances and the level of estimation involved. • We also assisted in evaluating the tax implications, the reasonableness of estimations and calculations determined by management. • We also involved our internal experts from the tax area in the analysis of the reasonableness of the tax assumptions on the basis of the applicable legislation. • Finally assessed the appropriateness and presentation of disclosures against IAS 12 Income Taxes.
See note no. 10.00 to the financial statements	

Other Information

Management is responsible for other information. The other information comprises all of the information in the annual report other than financial statements and our auditors' report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we concluded that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRSs), the Companies Act 1994, the Insurance Act 2010, the Insurance Rules 1958, the Securities and Exchange Rules 2020 and other applicable Laws and Regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company's to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with the relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

2.31 Risk factors Relating to the company

(a) Credit Risks

Credit risk is measured as the potential economic loss in the value of our portfolio that would result from either changes in the credit quality of our counter parties or the inability or unwillingness of a counter party to fulfil its contractual obligations. Credit risks may arise from our inability to meet our claims payment obligations, or our inability to indemnify the loss to the policyholder. We focus on mitigating this risk through proper capital planning and allocation that enables us to meet our liabilities on time and maintain solvency. Credit risk may also arises from potential losses from non-recoverability of reinsurance receivables. We select our reinsurance partners carefully and also possess strong long term relationships with them, which enables us to mitigate exposure to reinsurance risks.

(b) Underwriting Risks

Underwriting risk consists of premium and reserve risks in the property- casualty business segments. As part of our property-casualty business operations, we receive premiums from our customers and provide insurance protection in return. Premium risk is the risk that actual claims for the business in the current year develop adversely relative to expected claims ratios. We mitigate premium risk by reinsurance, as well as by focusing on excellence in underwriting. Assessing risks as part of the underwriting process is a key element of our risk management framework, which is governed by clear underwriting limits and restrictions, as per our enterprise-wide risk management framework.

(c) Operational Risks

Operational risks represent losses resulting from inadequate or failed internal processes, human errors, system failures and other external events, and can originate from a wide variety of sources, including potential losses due to a failure to meet the professional obligations or from the design of our products or from misspelling or from non-compliance with internal / external requirements related to our products. Though these losses tend to be of a lower frequency, they have a potentially high financial impact. Other operational risks include fraud, financial risk or a cyber security incident causing business interruption or disruption. We focus on minimizing the occurrence of operational risks as much as possible through engaging in extensive employee training, through creating redundancies across our technology network and through ensuring regulatory compliance – in both letter and spirit.

(d) Liquidity Risks

Liquidity risk is defined as the risk that current or future payment obligations cannot be met or can only be met on the basis of compromised conditions. We manage our liquidity risks by balancing cash inflows and outflows, and by embracing the time-tested principles of maximizing cash inflows and optimizing cash outflows. We also maintain our capital buffers to as per regulatory requirements to prevent capital / liquidity shocks and ensure that there is enough space for us to meet our liability obligations to our policyholders.

(e) Strategic Risks

Strategic risks are risks that enforce depletion in the company's value, arising from adverse management decisions on business strategies and their implementation. Strategic risks are identified and discussed in various forums both at the executive and management levels. We also monitor market and competitive conditions, capital market requirements, regulatory alignment, etc., to decide if strategic adjustments are necessary. We also focus on mitigating strategic risks through realizing our aspirations of customer-centricity, going digital, technical excellence, spirit of innovation and inclusivity focus.

2.32 Disclosure of departures from few requirements of IFRS due to mandatory compliance of Insurance Act's requirements

The management of IIBL has followed the principles of IFRS consistently in preparation of the financial statements to that extent as applicable to the company. Some requirements of Insurance Act 1938 (as amended in 2010) and Insurance Rules 1958 and regulations contradict with IFRS. As such the company has departed from those contradictory requirements of IFRS in order to comply with the rules and regulations of IDRA which are disclosed below:

i) Insurance Act 1938 (as amended in 2010) has issued templates for financial statements which has to be followed by all general and life insurance companies. IIBL followed the guidelines of IDRA and presented financial statements accordingly.

ii) Investments in quoted shares and unquoted shares revalued at the year end at market price and as per book value of last audited Balance Sheet respectively. Provisions are created by netting off any unrealized gain/(loss) arising at the year end date as per industry practice which has been widely practice in insurance sector in Bangladesh. However as per requirements of IFRS 9 investment in shares falls either under "at fair value through profit and loss account" or under "fair value through other comprehensive income" where any change in the fair value at the year-end is taken to profit and loss account or other comprehensive income respectively.

iii) General provision on insurance premium and re-insurance premium are created as per Insurance Act 1938 (as amended 2010) . However such general provision cannot satisfy the conditions as per IAS 37. At the year end the IIBL has recognized provision of BDT 23,19,06,835 as balance of fund and liabilities in the balance sheet under liabilities.

iv) As per IDRA guidelines, financial instruments are categorized, recognized and measured differently from those prescribed in IFRS 9. Disclosures in the prescribed templates of IDRA guidelines are disclosed only.

Additional Statements of disclosures on Auditor's Emphasis of Matters

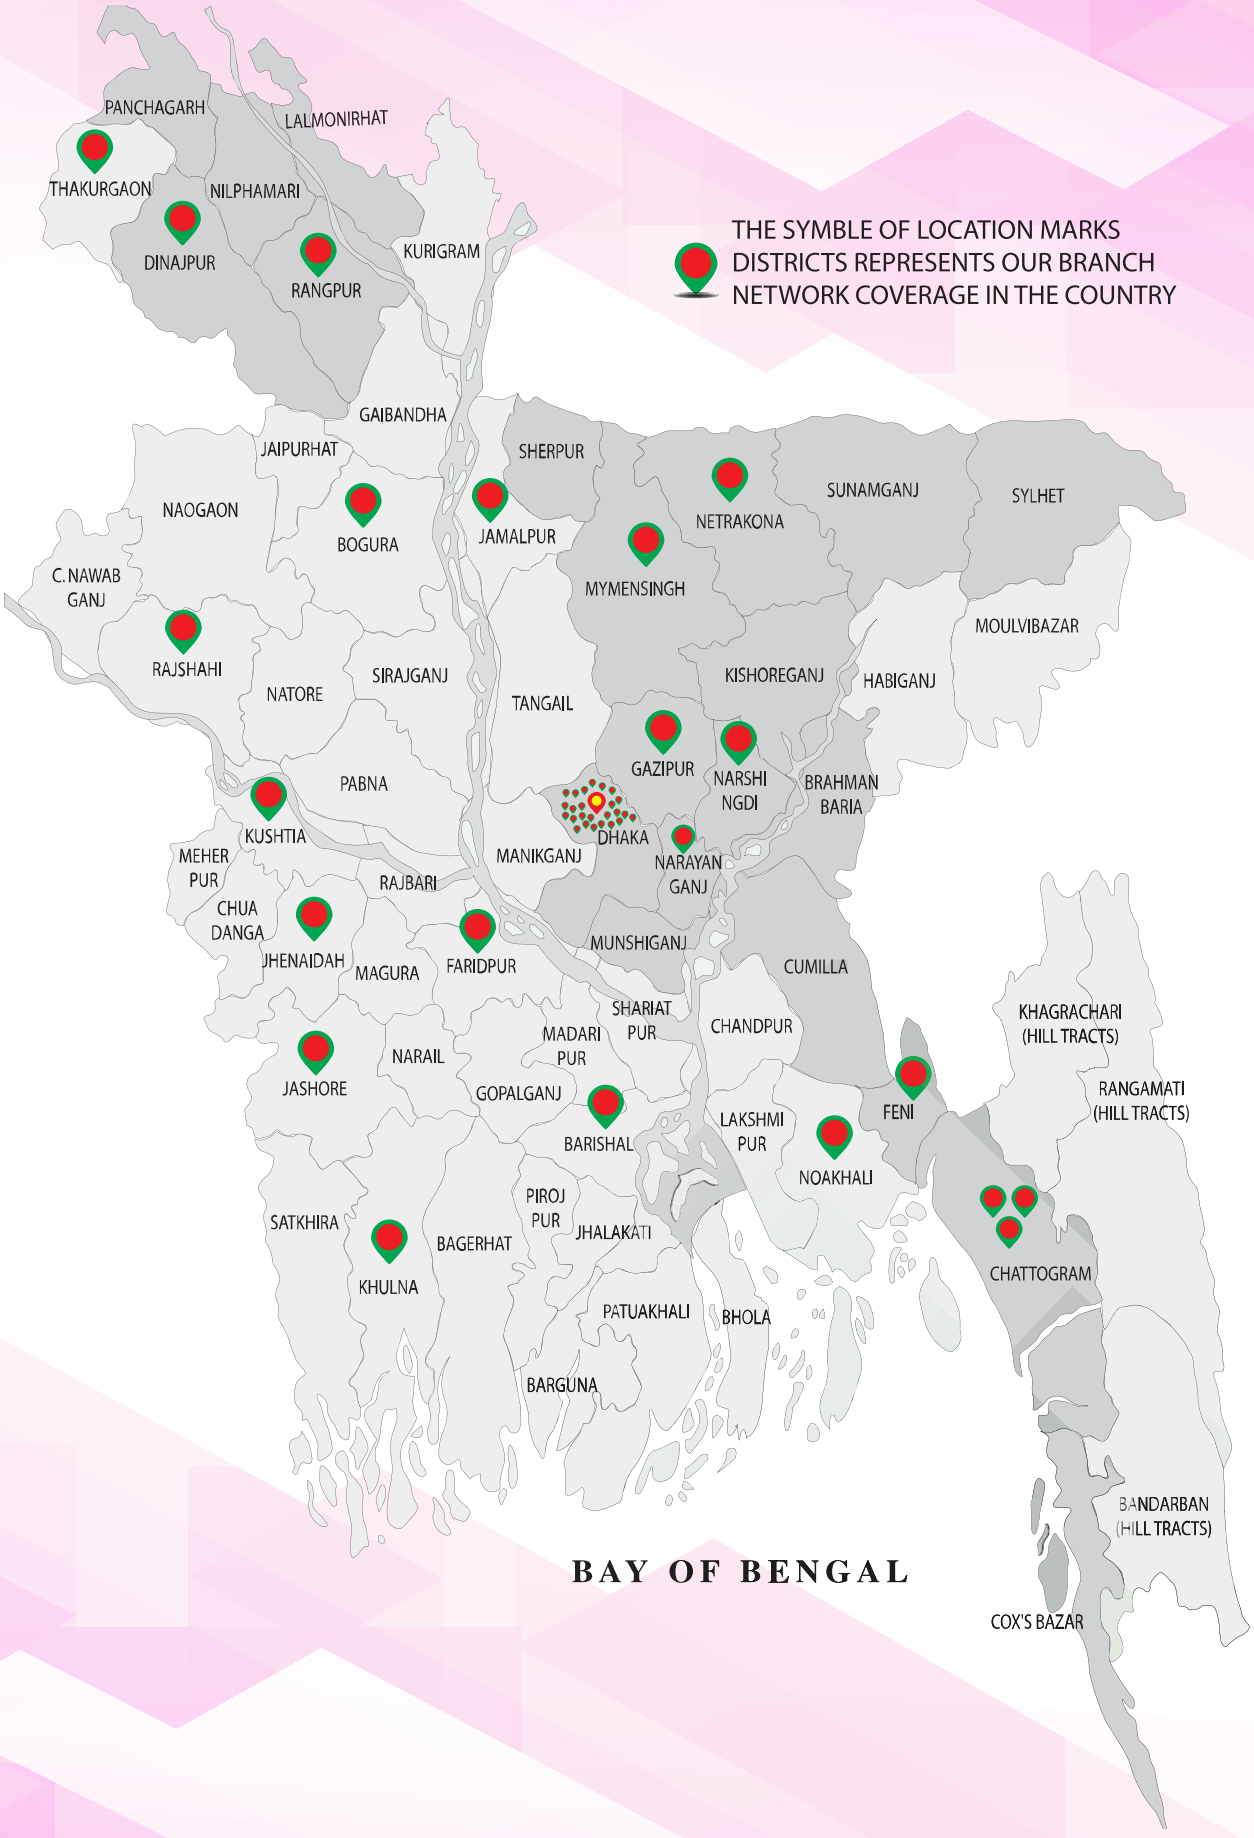

Disclosure on Emphasis of Matter

1. Depreciation had been charged on the aggregate value of Land and Office space and Investment Property, which included Land. Land is not a depreciable asset. These have been carrying forwarded since 2020 and 2021 respectively. However, necessary adjustment will be given in next year Financial Statement for the year 2026.

2. Due to high inflation rate and price hike our management expenses have been exceeded during this year 2025. We are trying to keep the management expenses within the limit set by IDRA.

3. The Company has been maintaining non-funded gratuity fund. We have made provision in the Financial Statement.

4. In case of marine cargo insurance we have collected premium after issuing money receipts shown as deposit premium and deposit VAT to the Govt. Treasury against the collected VAT able premium which is duly shown in VAT return. After having shipment advices against marine cover notes deposit premium transferred to premium income (Own business) which was shown in Form XL. As on 31.12.2025 all shipment advice was not received against all issued marine cover notes. So there arise a difference. Public sector business is also included in Form XL.
